

CHAIN CLEANER

Chain degreaser cleaner

Powerful and effective degreaser that removes dirt (dust, sand, soil, oil and grease). Specially developed to clean all types of metal surfaces, especially O-Ring, X-Ring or Z-Ring drive chains, with or without seals, of motorbikes or machinery.

CHAIN CLEANER is formulated with a mixture of synthetic hydrocarbons. Colourless, transparent and odourless product. Formulated to evaporate quickly without leaving any residue.

Application:

- Spray onto the surface to be cleaned and allow to dry.
- If the chain/surface is very dirty, wipe with a non-abrasive brush or paintbrush and spray again.
- Subsequently grease the chain with **CHAIN LUBE** (off-road) or **CHAIN LUBE DRY** (on-road).
- To extend the life of the chain, it is recommended to repeat this operation every 1,000km.

PACKAGE: 500 ml spray

APPEARANCE: clear, colorless

VISCOSITY AT 40 °C: 1 CsT

POUR POINT: < -23 °C

DENSITY: 0,76 gr/cm³

REV.05/21
