

## **MULTILUBE SPRAY**

### **Lubricant, release agent and anticorrosive**

Multifunctional oil with excellent dissolvent properties of rust, high creeping and lubricant capacity.

It has also been conceived to be used as temporary protection against corrosion in the storage of spare parts and pieces of machinery.

- ❖ Suitable to release oxidized parts, such as: sets of screws, stoppers of bearings, sets of axes (gears, pulleys, etc.).
- ❖ For the temporary antirust protection and storage of: pieces of machines, metallic parts, chains, cables and tools, etc.
- ❖ As lubricant for: small hinges, joints, bearings, metallic cables.
- ❖ Cleaning and effective lubrication of chains.

### **PROPERTIES**

- ❖ It dissolves rusts.
- ❖ It protects against corrosion.
- ❖ Good penetration.
- ❖ It displaces the water.
- ❖ Good lubricant.

**PACKAGE: 500 ml**

**POUR POINT: -45 °C**

**FLASH POINT: 71 °C**

**DENSITY AT 20 °C: 0,74 gr/cm<sup>3</sup>**

**COLOUR: Reddish transparent**

### **HOW TO USE:**

- ⇒ Stir energetically before use.
- ⇒ Keep the bottle vertically, as much during the storage as when using it.
